Hip Outcome Score

Please answer every question with one response that most closely describes your condition within the past week.
If the activity in question is limited by something other than your hip, mark not applicable (N/A).

ADL Subscale

Table with 7 columns: No Difficulty at All, Slight Difficulty, Moderate Difficulty, Extreme Difficulty, Unable to Do, N/A. Rows include activities like Standing for 15 min, Getting into and out of an average car, etc.

How would you rate your current level of function during your usual ADL from 0 to 100, with 100 being your level of function before your hip problem and 0 being the inability to perform any of your usual daily activities?
[][][] .0%

Sports Subscale

Table with 7 columns: No Difficulty at All, Slight Difficulty, Moderate Difficulty, Extreme Difficulty, Unable to Do, N/A. Rows include activities like Running 1 mile, Jumping, etc.
